

LMR Master™ Land Mobile Radio Modulation Analyzer S412E

Overview

Description

- LMR Signal Analyzers with Coverage Mapping: P25, P25 Phase 2, DMR (MotoTRBO™), TETRA, NXDN, dPMR, PTC, NBFM
- Broadband Signal Analyzers: LTE, WiMAX
- Interference Analyzer with Interference Mapping and support for MA2700A Handheld InterferenceHunter
- Spectrum Analyzer: 9 kHz – 1.6 GHz, optional to 6 GHz
- Cable and Antenna Analyzer: 500 kHz – 1.6 GHz, optional to 6 GHz
- Return Loss, VSWR, Insertion Loss, S_{11} / S_{22} , DTF
- Internal Power Meter, optional External Power Sensor
- Handheld, battery-operated design
- Weighs less than 7.6 lbs. (including battery)
- Rugged, field-proven design using Anritsu's 9th generation hardware platform
- Daylight viewable color touchscreen display
- Superior Immunity to RF interference
- Remote control via Ethernet
- Standard three-year warranty (battery one-year warranty)
