## All-in-one portable tester with excellent expandability and operability for 10/100G, OTDR and CPRI tests

The all-in-one design supports 5G base-station interface eCPRI/RoE throughput and delay measurements as well as high-accuracy time synchronization tests.

- Various modules
  - OTDR Module
  - Transport 10G module
  - [Transport 100G module](#)

- One-button network commissioning tests and easy network installation and maintenance
- Compact, rugged design provides years of service in the most challenging environments
- Large 9-inch enhanced display for easy viewing of results indoors or outdoors
- Linux OS provides quick boot up and stable, virus free operation
- Easy and intuitive GUI
- Simple SETUP, TEST, RESULTS three window operation
- Modular design with field installable modules and options maximizes your investment
- WiFi/Bluetooth/LAN connectivity
- Multiple remote control options including VNC
- Comprehensive, customizable report generation
- OTDR and 100G transport module can be simultaneously installed
- Available CPRI RF Measurement Module to display LTE spectrum of CPRI uplink and downlink signals
- BBU Emulation

\* Available for certified countries and regions including USA, Canada, Japan and all EU countries.
