

Fiber Terminal Box

FTB-501

FTB-501 is a compact fiber terminal box for use at the final fiber termination point in the customer premises. It provides mechanical protection in an attractive format suitable for customer premises usage. It is used to terminate the internal fiber cable in the customer premise to a point ready for connection to an Optical Network Unit (ONU) both for Multi-Dwelling Unit (MDU) and Single Dwelling Unit (SDU).

FiberHome

1. Features

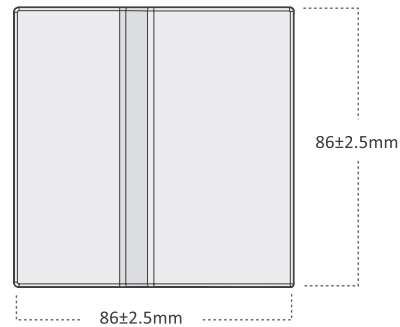

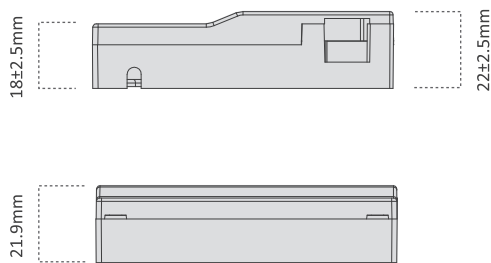

- 86 type fiber faceplate
- Drop cable terminated with field assembly or fusion splice with pigtail
- 1F splice capacity
- Indoor application
- Built-in fiber cable management
- Auto shuttered SC adaptor with dust-proof function is optional
- Material is ABS which is flame retardant

Auto shuttered
SC adaptor

2. Specification

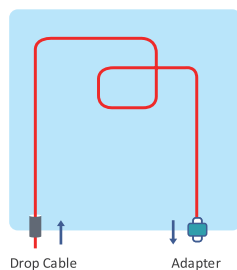

Technical Specification

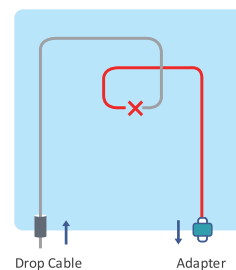

Item	FTB-501
Adapter type	SC×1
Installation	Wall surface mounted, indoor application
Splice capacity	1F
Cable diameter	≤ Φ4mm
Protection Level	IP30
Color	White
Weight	50 g

3. Cable Route

- Field assembly connector route

- 0.9mm pigtail connector route
